SUMMARY

This static set is designed to be used standalone or to be used with visuals either projected or on a video wall (Neither supplied). The stage design itself has an industrial, almost dystopian feel. It includes a Multi-level platform, a set of wide steps leads up to the central performance area, creating depth and a focal point. On both sides are scaffold-like platforms and railings, resembling factory catwalks or urban ruins. Textured columns and barrels add to the gritty, industrial atmosphere. The set gives scope to play different scenes in different locations. The rear pillars can be lit to give an indication to location if not using visuals. Included in the set are various items to depict the locations. These include Hospital Gurneys, A VW campervan and various chairs and tables.
